Mammadova Lala

+82 107301 6993 | worklalamammadova@gmail.com | Linkedin | Github | Portfolio

SKILLS

- **Programming:** Python, SQL
- **Frameworks & Libraries:** FastAPI, Pandas, Matplotlib, NumPy, Scikit-learn
- **Tools/Platforms:** Docker, Git, Jupyter Notebook, VS Code, Streamlit
- **Databases:** MySQL
- **Backend & APIs:** Rest APIs, Model Deployment. API Integration

Honors & Awards

- Awardee of 2024 Global Korean Scholarship by NIIED

Experience

National Consortium for Drone Security Lab | AI Research Volunteer – Feb 2026 – Present

- Built a CV system for a DIY drone using **YOLO** to detect and track hand position in a real-time video stream, translating directional movement into flight commands.
- Designed and built the **full pipeline** for computer vision detection through to physical drone response using **DroneKit APIs**

PROJECTS

Ticket Triage – AI/ML Support Ticket Priority Classifier | Github

- Built an **ML pipeline** to classify the priority of support tickets (low/medium/high) based on subject, body, and queue with **TF-IDF + LogReg, SVM, and Claude Haiku zero-shot**.
- Quantified model uncertainty with 1,000-sample bootstrap confidence intervals **(accuracy 95% CI: 0.674–0.704)** and analysed error modes, such as 21.7% of high-priority tickets were misclassified as medium.
- Developed a **FastAPI** inference service with selectable SVM / Claude Haiku backends, per-IP rate limiting, and LRU caching to avoid repeated LLM calls, containerized with **Docker**.
- An automated **GitHub Actions CI pipeline** was set up, and an interactive **Streamlit demo UI** was deployed on **Render**

AI-Powered Linux CLI Assistant | Github

- Built a Python CLI tool that uses the **Groq LLM API** to translate plain-English questions into **Linux commands** with explanations, without executing them.
- Implemented local history logging **(JSONL)** for reviewing or clearing past queries.

EDUCATION

Soonchunhyang University, South Korea | Bachelor of Engineering in AI & Big Data (GPA: 3.7) | March 2025 – Feb 29

CERTIFICATIONS

- **CS50x Introduction to Computer Science –** Harvard University
